

May 2, 2022

Honorable Judge Tylwalk:

Please accept this letter as a letter of interest for the West Lebanon position of commissioner. I have been a lifelong resident of West Lebanon living at

In 2002 I became a member of Speedwell Engine and Hose Fire Company which not only services West Lebanon Township but other surrounding areas. While a member of Speedwell I had worked my way up the ranks to Lieutenant. I was involved in organizing as well as participating in many events within our township. During my tenure with the fire company I met and developed many relationships with the residents of West Lebanon which carry on today which would make me a valuable asset as commissioner.

I run a successful Facebook page called Lebanon County Weather that has not only brought awareness to small business in Lebanon County but also revenue for charities such as the fire company by monetary donation. This page reaches many people even outside of Lebanon county due to having 22 thousand followers

I have been a part time employee of the township for many years often volunteering my time to assist with mowing or snow removal. I am a trusted employee/resident evidenced by having a key to the white row pump house to assist in monitoring the sewer station. I am also currently on the zoning board for the township and through the years filled in where needed on other boards when asked making me well versed in ordinances of the township. I attend monthly meetings voicing concerns and offering suggestions of solutions when asked.

I have previously been in favor of Mr. Pfleuger returning to his position however after attending the last few months of meetings I feel as though I am more than qualified for this position. I would like to be a active part of the township continuing to move in the positive direction that it has been going. I feel that my long standing relationships I have built with residents, volunteering within my community and work within the township make me a valueble asset as a commissioner.

Sincerely,

Justin David Snyder

Lebanon, Pa 17046
